

PHILADELPHIA MASS DANCE HOW TO GUIDE

GETTING STARTED:

Please use two separate devices – one to film your performance, and one for audio playback.

RECORDING DEVICE:

- Utilize the best device you have available for filming! (Cell phone, tablet, etc.)
- Record your performance by using your phone's native camera app. Videos created through apps (Instagram, Snapchat, TikTok, etc.) are unusable for the final product.
- **Please film your performance as an individual. No group performances.**
- Please make sure the microphone on your filming device is not obstructed during the recording process so you capture clear audio.

AUDIO PLAYBACK DEVICE:

- Please play the audio out loud – DO NOT USE HEADPHONES/EARBUDS.
- Confirm that your audio playback source provides clear sound and that the microphone on your filming device is not obstructed during the recording process.
- Follow the recorded directions at the top of the track. At the start of the audio file, you will be asked to introduce yourself, name the group you are from, then you will hear “Get ready! Have fun and the track will begin in 3...2...1”

HOW TO FRAME THE SHOT:

- Ensure that you are filming in landscape format.
- Please record your **individual** performance in a safe location outdoors. Face the sun to avoid being backlit and casting shadows on your face. We want to see YOU!
- Confirm, prior to recording, that your background is free of logos, branding, photos and other individuals.
- We need to see your entire body in the frame! A full body shot is required, with enough space to raise your arms fully overhead.
- **Please stay in the CENTER of the frame while performing.**

- Ensure that your hair is free of accessories and is pulled back, away from your face.
- Make-up is not required, however should look natural, if chosen to be worn.
